Practical Exercise I	Practical Exercise II
If only: design, technology and society, theory 4th semester	If only: design, technology and society, theory 4th semester
Observe the street (system). Note down what you can see, what is of interest - or no interest, what is the street made off, what is it used for:	Deduce the obvious facts, describe precisely the number of operations of e.g.  a driver parking, or buying something in a shop, going from A to B,
Diagram or sketch	Diagram or sketch
Force yourself to see more flatly, detect a rhythm	Date/ No.:  Decipher a bit of the town and its circuits, why do the buses/ trams/trains bicycles  and cars go this place to that
Count things in the street , signs, cars, number plates, taxis, men, women,
